

SG2047 : Census 2021 Key Variables for London - Explained

We are using a series of **Key Variables** extracted from the Census 2021 tables for London.

The first *five* variables are **totals**, the *sixth* - k007 - is a **density** (total population per unit area), the rest are **percentages** that use the listed, appropriate denominator form the first *five* variables.

Key Variable names and descriptions, along with links to the ONS Census tables used to create the data set. The *Variables* listed are those from the ONS Census Tables used to calculate the **Key Variable** in each case.

You will need to scroll to the right to see all of the details for each **Key Variable** ðŸ™ˆ%

Access the ONS Census tables (follow the links) for more details about what each variable means.

KeyVar #	Name	Key Stats Details	Census Table	Variables	Variable Details
